Call for applications

Research fellowship in 'Climate change, international trade and production networks'

The Department of Economics of the University of Bologna is currently inviting applications for a predoc researcher position to work at the intersection of climate economics, international trade and production networks.

Job description

The postholder will conduct original research on the impacts of climate change and the low-carbon transition on international trade and production networks, developing both empirical and theoretical analyses based on sector- and firm-level data. The scholarship will last 12 months, starting on 1 November 2025. The gross monthly amount of the fellowship will be 2,436,63€. We expect the postholder to be based in Bologna. The knowledge of the Italian language is welcome but not a prerequisite.

Job qualifications and requirements

The position is directed to a junior researcher with experience in fields and methodologies relevant to the project tasks. The features of the ideal candidate include:

- A Bachelor's or Master's degree in any field relevant to the project.
- Experience with research focusing on climate economics, international trade and production networks
- Familiarity with empirical and theoretical production network methodologies
- International study and/or work experience

University of Bologna

The [University of Bologna](#) (UniBo) is the oldest university in the world and regularly features among the top international academic institutions. With 33 departments and a population of 85,000 students from Italy and abroad, it is among the largest universities in Europe. Its main campus is based in Bologna, a vibrant city with a high quality of life, strong public infrastructure, and excellent social services. Bologna has a large airport and is connected to the high-speed railway network. The [Department of Economics](#) (DSE) of UniBo is a leading academic institution in several fields of economic research, with a large and expanding environmental economics cluster. The DSE is also a founding member of the Research Institute on Global Challenges and Climate Change ([Alma Climate](#)). Both UniBo's [International Desk](#) and Emilia-Romagna region's [it-ER](#) service offer information and support to incoming international students and staff.
